

BRING LEARNING TO LIFE

Help your students become growers, scientists, designers and changemakers.

Farmwall brings fresh food, science, nutrition and sustainability into everyday learning through a living food system students can see, grow and learn from inside their school.

- Fresh food students grow and eat
- Real-world STEM + sustainability learning
- Curriculum-connected learning across the school

SCAN TO EXPLORE FARMWALL SCHOOLS

A living learning system for your school.

Farmwall combines a living food system, curriculum-connected learning, teacher support and the Ecosystem digital platform, giving schools one practical way to bring food, science, health and sustainability to life.

GROW

Grow and harvest fresh food inside the school.

LEARN

Connect science, food, health, STEM and sustainability.

EXPLORE

Turn real observations and data into inquiry.

CONNECT

Access teacher support, PD and Ecosystem resources.

BUILT FOR AUSTRALIAN SCHOOLS

- ✓ Curriculum-connected
- ✓ Ongoing servicing
- ✓ Teacher professional development
- ✓ Professional installation
- ✓ Food safety support

One Farmwall. A whole year of learning.

From growing and nutrition to science, sustainability and real-world data.
